

invisalign®

The Clear Alternative to Braces

Congratulations on taking the first step towards straightening your teeth! Here at dental-Spa we believe in transparent charging with no hidden extras.

Here is what is included in our all inclusive Invisalign packages:

- **Invisalign Consultation** – Assessment of your treatment goals and treatment advice.
- **Digital X-ray** – Pan-oral Radiograph that we discussed together.
- **Clinical Photographs** – In the mouth Photographs we discussed together.
- **PVS Impressions** – the records we will take as the next step of treatment, we will then UPS these to USA and get the records 3D-scanned into the ClinCheck software (simulation of tooth movement software).
- **Diagnosis and Treatment Planning** – this is where I do the work to prescribe treatment for you according to our discussions to achieve your goals.
- **ClinCheck Review** – once I am satisfied that the ClinCheck outcome reflects what you want, we will review this together so that I can be sure you are fully satisfied.
- **Invisalign Aligners** – these are then fitted and any adjustments and auxillary treatments necessary for your teeth are included.
- **Hygiene** – we remove calculus to ensure your gums are healthy for the duration of your treatment.
- **Whitening** – we will give you some whitening gel to whiten your teeth.
- **Refinements** – for Full cases, up to three included if needed. For Lite cases, none are included, and only one is allowed at £400.00.
- **Retention** – we will provide Essix retainers (2) or a credit towards Invisalign Vivera Retainers(6).

Please feel free to email me with any questions on Cohan@dental-spa.co.uk .

I hope this is helpful for you!

Dr Cohan Rajan BDS MSc(Hons.) FICOI

Invisalign Gold Certified Doctor since 2005
